

## Girls Sleepaway Camp

At Amplify, we believe in the transformative power of summer camp experiences. Our commitment to creating a nurturing and inclusive environment for girls has always been at the heart of everything we do. Summer camp is a time of growth, friendship, and self-discovery.

In a world where girls are often pitted against each other, we are committed to creating a different environment where competition gives way to collaboration and everyone is encouraged to shine. Our goal is to shift the culture of gossip and clannishness to one of inclusion and solidarity.

We have always supported young people who believe Amplify is the place for them and will continue to do so. We are deeply committed to honoring and elevating girls, recognizing the unique experiences and challenges they face in a world that often limits their potential through harmful stereotypes and systemic barriers. At our [Girls Sleepaway Camp](#), we work with programs specifically designed to provide a safe, nurturing space for girls to authentically express themselves, explore their creative talents, and gain confidence through music, art, and community. By fostering an inclusive environment, we not only celebrate diversity, but also equip young people with the tools to navigate and transform the world, promoting equity and respect for all gender identities.
