Elastic Sofa Covers — Magic In Home

EVERYDAY ESSENTIAL

Elastic Stretch Sofa Cover

A stretch cover pulls taut over the frame and holds its shape on its own — no pins, no tucking, no straps underneath.

- Spandex-blend fabric with strong shape recovery after washing
- Weave that resists sagging on the seat and armrests
- Enough give to fit slightly different sofa dimensions
- Soft finish that feels good to sit on, not stiff or plasticky

TAILORED COVERAGE

Elastic Fitted Sofa Covers

Panel-specific cutting for the seat, back, and arms means the cover follows the sofa's actual shape instead of draping like a sheet.

- Separate panels cut to each part of the sofa
- Reinforced seams and corners at high-stress points
- Non-slip grips at the base to stop shifting
- Machine-washable and returns to shape every time

Elastic Sofa Covers — Magic In Home

SECTIONAL FIT

Elastic Sofa Cover L Shape

Built as two connecting pieces designed to meet cleanly at the corner, so the whole sectional is covered without gaps or bunching.

- Two-piece construction that aligns at the corner seam
- Clear sizing for both the chaise and main sofa length
- Matching fabric and stretch across both sections
- Works with either a left-facing or right-facing chaise

Elastic Sofa Covers — Magic In Home

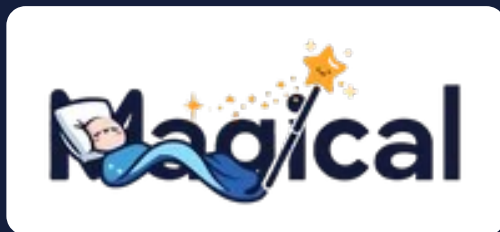

FULL-SIZE FIT

Elastic Sofa Cover 3 Seater

Sized specifically for full 3-seater sofas, so the fit stays even across all three cushions instead of bunching in the middle.

- Measurements matched to 3-seater dimensions specifically
- Even stretch across all three cushions
- Coverage that reaches the base, not just the top half
- Fabric weight substantial enough to resist shifting
