Sterling Silver Bracelets Womens

A good bracelet should feel like it was made for the wrist it sits on. Our sterling silver bracelets for women range from delicate everyday chains to statement pieces with a single sparkling stone, so there's a style for both the office desk and the evening out.

925 Silver Bracelet for Women

925 marks genuine sterling silver — a metal chosen for its shine, its strength, and how comfortably it wears over years, not just seasons. Each 925 silver bracelet in our collection is finished by hand and set with carefully selected stones for lasting brilliance.

Sterling Silver Bracelet for Women

Whether it's a solitaire stone on a fine chain or a fuller design with more presence, our sterling silver bracelets are built to catch the light without ever feeling heavy on the wrist, making them easy to wear from morning meetings through to dinner plans.

Silver Chain Bracelet for Women

A chain bracelet is the piece you reach for without thinking twice. Ours are crafted in sterling silver with secure clasps and a comfortable drape, available with or without stone accents, so it layers easily with the rest of your jewellery.
