

Balloon Tamasha

Birthday Decor at Balloon Tamasha

Balloon Tamasha is an Indian party-supplies store built around one idea — birthdays should feel like an event, not an afterthought. This presentation walks through our birthday decoration collection, the kinds of kits available, and where to shop them on the website.

Birthday Decoration Kit

Putting a party together from scratch can eat up hours you don't have. A ready birthday decoration kit brings the banner, balloons, and hanging fans together in one box, matched by colour and theme, so you can set up a full backdrop in under an hour instead of running between shops.

Birthday Party Decoration Kits

Every celebration has its own mood — playful and bright for a kid's party, sleek and metallic for an adult milestone. Our birthday party decoration kits are grouped by theme and colour palette, so you can pick a look that fits the occasion instead of piecing one together item by item.

Birthday Party Decor Items

Sometimes you just need a few standout pieces rather than a full kit — a foil letter banner, a cluster of star balloons, or a fringe curtain for the photo wall. Our range of birthday party decor items lets you mix and match to build the exact setup you have in mind.

Happy Birthday Decoration Kit

A classic Happy Birthday banner is still the centrepiece of most celebrations. Our happy birthday decoration kits pair a bold banner with coordinated balloons and backdrop fringe, giving you a complete, photo-ready setup that works for both home parties and rented venues.
